

## MIKE GING

I have worked professionally as an audio engineer for some of the most recognized names in the music business: Michael Jackson, Tina Turner, Sean "P. Diddy" Combs, Elton John, Slipknot, and many more popular artists.

I record, mix and produce music for the music industry, movies and TV.

I have recently finished more than twenty five mixes of major artists including R.E.M., Stone Temple Pilots, Jane's Addiction, P.O.D., and The Bee Gees, for the video game RockBand and other modern multimedia formats.

I work for my clients either at my own studio or at their designated facility. SSL, Neve, you name it. Pro Tools work is a specialty, and current cutting-edge techniques are my fort .

Further details are available at my website:
